Canadian Karting Regulations BULLETIN 09-05 Book 2 Technical Regulations

SUBJECT: HONDA EXHAUST SYSTEMS

EFFECTIVE DATE: May 22, 2009

25.2. Exhaust Header/Silencer In All Classes

Delete 25.2. g) and replace with the following:

g) The length of the header shall be 8.000" min. – 12.000" maximum, not including the silencer. Measurement to be taken with a 1/4" (6 mm) cloth tape measure.

For single bend headers, insert the tape measure through the header toward the flanged end, hook it on the outside of the flange in the area toward the inside of the bend. Draw tightly toward the other end without twisting, and measure to the inside of the bend at the header outlet.

For multiple bend headers, insert the tape measure through the header toward the flanged end, hook it on the outside of the flange in the area toward the inside of the bend without twisting the tape measure. Draw tightly toward the header outlet end and measure at any end point on the circumference of the header outlet tubing.
